Contract Task Order 423

Subject: Revised Final Engineering Evaluation/Cost Analysis (EE/CA)  
Five Small Arms/Skeet Ranges at Stump Neck Annex  
Naval Support Facility-Indian Head,  
Indian Head, Maryland

Dear Mr. Rail:

Tetra Tech is pleased to submit two copies of the Revised Final EE/CA for Five Small Arms/Skeet Ranges at Stump Neck Annex for your records (enclosed). This document is being submitted in electronic format (as a PDF file of the entire report on CD) and hard copy (as change pages that can be integrated directly into your binder containing the June 2012 Final EE/CA).

This Revised Final EE/CA addresses comments received from Navy Legal Counsel regarding the Applicable or Relevant and Appropriate Requirements (ARARs) discussed in Section 3. Since this version contains changes to a document that had previously been finalized, all changes have been made in coordination with the Partnering Team members, who are copied below on this transmittal.

Feel free to contact me at 610-382-3770 or [barb.becker@tetrattech.com](mailto:barb.becker@tetrattech.com) if you have any questions or need additional copies.

Very Respectfully,

Barb Becker, PMP®  
Project Manager
